## City To Modernize Ordinances Files

The Pahokee City Council in regular session Monday night voted to modernize the files in the city clerk's office by codifying the innumerable ordinances that have been adopted since the city was incorporated. City Attorney Ralph O. Johnson was authorized to draw up a contract with the Municipal Code Corporation for the codification of City of Pahokee ordinances in a 250-page code book at a cost of \$2,285.

The city's engineering firm of Elliott Gross & Associates was instructed to draw plans for a building with rest room facilities to be located at the Boy Scout Beach and picnic grounds north of Pahokee Harbor. The raising of finances to construct this building is to be a joint project of various civic organizations. The City is co-operating by furnishing plans that must meet with the approval of the State Board of Health and the U. S. Army Corps of Engineers.

Postmaster Edward A. Jensen appeared before the Council with a request that city take steps to provide better protection for city mail carriers from vicious dogs who have been attacking the carriers during their appointed rounds, biting them on two different occasions. The Council referred this matter to Attorney Johnson to see what can be done to make residents restrain their poodles when the mailman calls.

Bids accepted at the meeting included that of the Neff Machinery Co., Inc., to sell the city a ditching machine for \$3,550 and that of W. S. Darley Co., of Chicago, a centrifugal pump for the fire department at a cost of \$729.20. ## Meeting Called To Study FHA Plans

An invitation is issued through the press to all contractors, real estate men and financing organizations in Glades, Hendry, Okeechobee, Martin and western Palm Beach county to attend a conference at the Belle Glade Country Club on Tuesday, Dec. 1, at ten a.m. to discuss a new plan of FHA to facilitate the security of FHA mortgages in those areas.

Those who can qualify as FHA appraisers and inspectors are also asked to attend, as local men will be appointed to these positions, after furnishing qualifications to Mr. Henry of the FHA home office, who will be among the FHA officials present at the December 1st meeting.

The Federal Housing Authority has initiated an aid known as the Certified Agency Program for the particular benefit of the smaller communities where the securing of FHA loans has been impractical heretofore.

Under the CAP local appraisers and inspectors will be appointed by FHA to service applications in their own smaller communities; a certified lender, such as the Everglades Federal Savings and Loan Association will process the FHA applications using the local appraisers and inspectors and then FHA will insure the loans.

Realizing that the FHA is not now reaching a great number of potential home owners due to the lack of facilities in smaller communities, this program has been worked out and is now being initiated in selected communities. The western part of Palm Beach County, Martin, Hendry and Glades will operate under the Miami office, while Okeechobee will operate under the Tampa office.

## Pick your savings target and shoot straight for it!

**A** home... financial security... a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you before you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.50 a week. In 5 years you'll have Savings Bonds worth \$2053 in cash; in 10 years, \$4448.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

*Uncle Sam made the bonds you own  
an even better bargain!*

# Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 . . . a \$37.50 Bond will be worth \$67.34 . . . and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25¢ a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 . . . in 9 years and 8 months, you'll have \$2,850.70 . . . and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure; it's automatic. And you will be helping yourself and your country!

If you want to be paid  
your interest as current income—  
invest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$20,000.

## Christian Science Group Of Canal Point

How spiritual enlightenment brings protection from evil will be brought out at Christian Science services Sunday.

"Ancient and Modern Necromancy, Alias Mesmerism and Hypnotism. Denounced" will be the subject of the Lesson-Sermon. Included in the Bible passages to be read in Paul's counsel to the Romans (13:12): "The night is far spent, the day is at hand; let us therefore cast off the works of darkness, and let us put on the armour of light."

Correlative citations from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include (571:15): "At all times and under all circumstances, overcome evil with good. Know thyself, and God will supply the wisdom and the occasion for a victory over evil. Clad in the panoply of Love, human hatred cannot reach you. The cement of a higher humanity will unite all interests in the one divinity."

## Baptists To Fight Drinking, Gambling

TALLAHASSEE—At its recent convention Florida Baptist leaders made plans for a more vigorous campaign against drinking, gambling and indecent literature.

Speakers pointed out that last year Florida residents and visitors consumed 59 million gallons of and more than eight million gallons of taxed whiskey, spending more money thereon and creating more alcoholics per capita than any other state. No records were available for moonshine or untaxed liquor sales but indications are it was substantial.

Rev. Jack Eppes, head of the United Christian Action, an organization sponsored by Baptists to work for a better moral climate, told the 3,000 delegates present that Florida's 4,400,000 residents "continued their long held record of drinking more and spending more than any other state per capita."

"This alcoholic degradation", he said, "equals an investment of close to \$50 million dollars."

The temperance committee reported that Florida's 17 dog tracks are more than in the rest of the nation combined, to which we must add five horse tracks and four jai alai frontons.

The delegates voted to urge all churches of Florida to join the 1,300 Baptist churches in a fight against "the tragic spiritual, economic and social problems now slowly but surely destroying our state".

## Make your dream house come true! It's easy —through Payroll Savings!

If you think you can't own the home of your dreams because the down payment's too steep, chances are you've never tried the Payroll Savings Plan. Because this is the easy, automatic way to meet any down payment—for a house or any large purchase.

Just do this: Sign a Payroll Savings application at your pay office, naming a certain sum to be kept aside from your pay before you get it each week—a few dollars or as much as you want. After that, you're saving automatically—nothing to worry about, nothing to do. And, best of all, the money saved out of your pay each week is automatically invested for you in U. S. Series E Savings Bonds. Because Savings Bonds earn solid interest—3% cumulative semiannually when held to maturity

—the few dollars saved from your pay each week soon grow into big generous amounts. For instance, if you sign for \$12.50 a week, in just five years you'll have \$3,348.95 cash. In 9 years, 8 months, you'll have \$7,217.20!

So don't let down payments get you down. Meet your needs for ready cash the way more than 8 million other Americans are meeting theirs—join the Payroll Savings Plan today. Or, if you're self-employed, invest in Bonds regularly where you bank. Start now to make your dreams come true!

*If you want your interest as current income, ask your bank about Series H Bonds, which pay interest annually by Treasury check.*

## Pensacola Has Popular Museum

PENSACOLA—The T. T. Wentworth Museum, a popular attraction in this area, continues to acquire interesting, historic exhibit material. It has gathered considerable Civil War material with items from both sides in the conflict.

A recent addition came as a gift from Norman and Douglas Simons of Gulf Breeze. It was the sword used by Stephen B. Colby, a guard stationed outside the Fort Theatre the night Abraham Lincoln was shot.

The Wentworth Museum is located on Palafox Highway at Pensacola.

## Many Fail To Pass Drivers' Test

During the first eight months of this year, 429,104 applied for a driver's permit, but almost two-thirds of those applicants failed to make the grade on the first trip. While 170,887 passed, 254,440 failed.

TALLAHASSEE—The 1,300 members of the American Legion sponsored Florida Highway Patrol Auxiliary have a new leader for the next year.

He is Dudley Goulden of Bradenton who was elected at a statewide meeting of district majors, their executive officers and Florida Highway Patrol troop commanders here.

Major Goulden succeeds James D. Sindat of Maitland, and becomes the fifth officer to hold the statewide post since the group was officially organized and put into service in 1955.

W. B. Buerman of Bradenton, former executive officer of Troop F, succeeds Major Goulden as head of the district there.

Auxiliaries, who serve without pay as assistants to state troopers, have worked over 231,000 man hours since the group started five years ago. The Legion's auxiliary patrol was given official legislative status by the 1957 legislature.

## Screwworm Work Ended On Nov. 14

SEBRING—Florida's screwworm quarantine, effective since May 1, 1958, ended at midnight Saturday, November 14.

The quarantine, affecting 22 counties in the southern part of the state, applied to shipments of live stock and other warm-blooded animals destined to points north of a line across the peninsula through Ocala.

With the quarantine lifted, live stock shipments from southern Florida to northern points no longer will require screwworm inspection, spraying and certification, but all other sanitary requirements applying to outgoing shipments remain unchanged. Also, strict state and Federal screwworm regulations governing shipments of live stock into the state will remain in effect.

Ended also on Saturday were all dispersals of sterile screwworm flies used by the State-Federal Screwworm Eradication Program to wipe out the insect pest in Florida and the Southeast.

Lifting the quarantine and closing down of the mass-rearing and sterilization facilities at the program's huge laboratory here was approved last month by Florida Livestock Board and officials of USDA's Animal Disease Eradication Division. The two agencies are jointly responsible for the eradication project.

## Turnpike Toll Is Up 19 Percent

FORT PIERCE—Income from the Florida turnpike for the first nine months of 1959 was 19 per cent above last year's level, with earnings up 27 per cent.

Turnpike Chairman Thomas Manuel says the Sunshine State Parkway is doing a booming business. Actually, this is a reversal of the national trend in toll turnpike operation. Most turnpikes are being shunned by motorists.

Manuel said if traffic on the Florida Turnpike holds at its present level, even without an increase, the 40-year bonds could be retired in approximately 22 years. With a normal increase in traffic, he feels that 12 to 15 years will see the bonds paid off.

The Sunshine State Parkway took in \$4,002,000 in the first nine months of this year, an increase of \$640,000 over last year.
